

How to be found by AI search.

A 5-step checklist for small businesses in 2026.

ONE

Complete your Google Business Profile.

Every field, photo, category, service, and business hour filled in.

TWO

Publish one in-depth article on your website.

A real 1,500+ word piece answering a question your ideal client actually asks.

THREE

Publish in both languages if you are bilingual.

Native voice in each language, not translated word for word.

FOUR

Get named in one credible outside source.

A guest post, podcast feature, local news mention, or industry directory listing.

FIVE

Write for the person asking the question.

Specific, useful, and unmistakably yours. Skip keyword stuffing.
